MEDIA RELEASE

Welcome Springtime Luncheon set to sizzle with Miguel Maestre

Now in its third successful year, the RHH Research Foundation's Welcome Springtime Luncheon provides the opportune time to celebrate all things Spring ... warmer weather, delightful garden bulbs, cooking with Spring produce and fresh and colourful fashion.

With so much exciting retail development in Hobart, Cat & Fiddle Arcade have jumped on board for our Springtime Luncheon and will be showcasing the best of Spring fashion on the day with a parade featuring clothing and accessories from Oxford, Sportscraft, Review and Trenergy.

Our special guest, Spanish Chef Miguel Maestre, is sure to add some sizzle to the day. Miguel has worked in some of Sydney's premier kitchens including the Bather's Pavilion, Bel Mondo and Cru in Sydney. He is now well known for his Celebrity Chef role on Channel TEN's The Living Room. Miguel's big personality and passion for food and cooking is infectious and we can't wait for him to entertain our audience on Wednesday.

Along with being entertained by Miguel, guests are looking forward to having lots of fun on the day with prize giveaways, a live auction and the chance to dress up and grab a happy snap with Miguel, with all proceeds funding vital local health and medical research for all Tasmanians.

In order to support local clinical research, the RHH Research Foundation relies on community support when co-ordinating fundraising events such as our Welcome Springtime Luncheon. On this occasion, we would like to acknowledge our sponsors Cat & Fiddle Arcade, DJ Motors, The Information Management Group and Wrest Point.
