## MEDIA RELEASE

### GOOD FRIDAY: 2017 Easter Egg Hunt & Family Picnic

Now in its fifth successful year, the RHH Research Foundation's Easter Egg Hunt and Family Picnic is on once again at the spectacular Royal Tasmanian Botanical Gardens on Good Friday 14 April 2017.

Our Easter Egg Hunt & Family Picnic welcomes over 3,000 people to the picturesque gardens and is a highly anticipated family event over the Easter break.

This Friday, patrons will witness thousands of Cadbury Easter eggs scattered across the lawns of the Royal Tasmanian Botanical Gardens, providing a fun day out for families. Children aged 3 to 13 years can participate in one of the many egg hunts throughout the day, as well as other egg-citing activities including bubble ball, make your own edible garden, rabbit petting, craft, entertainment by ExitLeft Performance Academy and meeting our very special guest the Easter Bunny himself!

One of our current Research Grant recipients, Dr Nicole Bye, will be joining us on the day to talk to local media about her important research into traumatic brain injury. A timely subject given the need for all Tasmanians to be extra careful on our roads over the Easter holiday period.

**Proceeds from this event aim to invest over \$20,000 in local medical research.**

<b>Media invitation:</b>	Please join us at 12 noon Good Friday 14 April Royal Tasmanian Botanical Gardens (near the Japanese Gardens) Interview with Dr Nicole Bye and RHH Research Foundation CEO Heather Francis
