MEDIA RELEASE

Big December Breakfast set to raise much-needed funds for local health and medical research

The scene is set for the RHH Research Foundation's annual Big December Breakfast fundraiser. With major support from Searson Buck, it is anticipated that the 2013 event will raise much-needed funds for local health and medical research.

This year the breakfast will feature guest speaker John X, highly acclaimed Tasmanian born entertainer and comedian well known for his works locally but also in national stage productions such as the Lion King, Billy Elliott and more recently South Pacific.

Not only will John be sharing some of his story, but he'll also be bringing along some friends from the group, *Croon*, Andrew Colrain and Colin Dean, along with cast members from the *Bawdy Panto* sharing some tongue in cheek tunes to finish off the fun festivities of the morning.

Along with this great entertainment, the morning features 'fun'raising elements such as raffles, auction items, lucky treasure and balloon prize giveaways.

The RHH Research Foundation would like to take this opportunity to acknowledge and thank all supporters and donors for their contributions that enable vital healthcare and medical research in Tasmania to continue.
